

We at Town & Country Real Estate, feel that this is a burden on those that solicitation thru fax machines is not an issue. If this is an issue for other businesses, they should contact their fax line provider and have a block put on. We have no issues with this and feel that this will create extra work for those of us that have real work to do. Extra paper to fulfill this requirement is also a budget concern, creating an extra expense on the company. Paper is not cheap and when fulfilling this requirement, the expense of paper for our business could be great.
